Dear Dr Wilson

Thank you for your letter dated 15th September which was discussed by Members at their recent Delting Community Council meeting.

Members support your project. They think it is worthy of further activity and you should go ahead and screen the population of Shetland and identify what you find. The more people who can be screened, the more people will benefit from it and the healthier they can become.

We hope this project is a success.

Yours sincerely

Lynne Ratter (Mrs)
Clerk
